Miscellaneous	21

Elemental Values of Minerals:

Minerals do not normally occur as pure mineral, but rather, as part of complex molecules. Some common examples are calcium citrate (calcium combined with citric acid to form calcium citrate) or chelated iron (iron bound to amino acids and/or small proteins). In each case, the calcium or iron accounts for less than 25% of the total weight of the actual substance. Therefore, it is important to know how much actual calcium or iron is in each tablet or capsule. The supplement should state the actual amount of the mineral in question. A supplement may read, "100 mg of calcium from calcium citrate". In this case there would be 100 mg of elemental calcium, but the calcium citrate would weigh 500 mg. It would take 12 of the capsules to obtain the entire RDA for calcium (1200 mg).

Conversions

Milligrams: 1,000 milligrams (mg) is equal to 1 gram
Micrograms: 1,000 micrograms (mcg.) is equal to 1 mg
Ounces: 1 ounce is equal to 28.35 grams
Grains: 1 grain is equal to 64.8 mg
Liters: 1 liter is equal to 1.0567 quarts

International Units (IU):

These are activity units and not weights, however comparisons can be made.
Vitamin A: 1 IU is equal to 0.300 mcg of all-trans retinol
Vitamin D: 1 IU is equal to .025 mcg of vitamin D₂ or D₃
Vitamin E: 1 IU of vitamin E activity is equal to 0.672 mg [d]-alpha-tocopherol.

Vegetarian Capsules

Daily Manufacturing is now using vegetarian capsules (Vcap) in all encapsulated products—except softgel capsules (which are not available). This represents a substantial cost to us, but we believe that it adds quality to our products. Vegetarian capsules are made from a plant derived cellulose and are digested as easily and rapidly as gelatin capsules.

Gluten Free

Contains Rice

Vegan

Soy Free

Excipients

In most cases it is easy to determine everything that goes into your supplement just by reading the label. FDA labeling regulations require that all active ingredients be listed in the “Supplement Facts” box, and other ingredients be listed beneath as “Other Ingredients.” This is a reasonable regulation that allows the consumers to know exactly what they are taking. It is frequently necessary to use excipients to maintain a consistent capsule weight or even to make a product at all. We use only excipients that are safe and natural, and in some cases even contribute to the nutritional content. We only use excipients when we absolutely must, in order to produce a quality product. Many Daily supplements have no excipients. The list of excipients below explain what they are and why they are used. The identifying codes can be used to tell what excipients are in the products listed. The letter codes are at the end of each product description in parenthesis. The following excipients may be used in Daily products. Each name is followed by an alphabetical code that is used at the end of each product description to indicate what excipients are used. If a product contains any of the excipients below, it will be indicated in the product description and on the label.

(Non-Active Ingredients)

No Excipients (NE): Many products contain no excipients.

Cellulose (C): Also known as microcrystalline cellulose. A purified plant fiber used as a filler, flowing agent, and aids tablet disintegration. Besides aiding in manufacturing, cellulose supplies a high quality dietary fiber.

Chlorophyll (CL): Natural plant material used as a protective coating on tablets.

Croscarmellose Sodium (CS): This form of cellulose absorbs large quantities of water and expands rapidly. This is used in small amounts to help tablets disintegrate. This effectively eliminates the problem of undigested tablets.

Magnesium Stearate (MS): Magnesium stearate is made by combining magnesium with vegetable oils. Magnesium stearate assists in allowing ingredients to flow into tablet dies and capsules.

Shellac (S): A natural coating produced from tree resins by insects and collected by farmers in India. Used on a few tablets that need protection from oxygen and moisture.

Silicon Dioxide (SD): A natural silica used as an anti-caking agent, that allows “sticky” materials to flow. All silica is poorly absorbed, but does add some silicon to the diet. Typically used in concentrations of 1% or less.

Soybean Oil (SO): This natural vegetable oil is frequently included in softgel capsules containing fat soluble vitamins or oils.

Stearic Acid (SA): A natural vegetable oil often used as a lubricant to allow difficult agents to flow. Used in small amounts (usually 2% or less) therefore, not adding significant calories from fat.

A & D Vitamins

Extra-A Plus & Vegetarian Extra-A: These products contain 25,000 units of vitamin A. The **Extra-A Plus** has 8,333 IU from each of the following: beta-carotene, fish liver oil and vitamin A palmitate. The **Vegetarian Extra-A** is a vegetarian formulation that has 12,500 IU of vitamin A from beta-carotene and 12,500 IU of vitamin A palmitate. The beta-carotene is a natural source from mixed carotenoid that also contains alpha-carotene, cryptoxanthin, lutein, zeaxanthin, and lycopene. Vitamin A activity is only claimed for the beta-carotene, but the other carotenoids have other important biological activities, and some are even more powerful antioxidants than beta-carotene. A combination of carotenoids is more natural, since foods contain all of the carotenoids. There is also an extra margin of safety when some of the vitamin A activity is provided in the carotenoid form. Carotenoids are essentially non-toxic, even at high doses. In contrast to pre-formed vitamin A, which is toxic at high doses. **Extra-A Plus** and **Vegetarian Extra-A** are both available in bottles of 100 and 250 vegetarian capsules. (MS, Organically Grown Brown Rice)

A&D: Each softgel capsule contains 10,000 IU of vitamin A and 400 IU of vitamin D₃ from fish liver oil. **A&D** is available in bottles of 100 and 250 capsules. (Cod Liver Oil, SO, Beef Gelatin Capsules)

Vitamin D₃-1000: Daily Vitamin D₃ is made from sheep lanolin. Each capsule contains 1000 IU of vitamin D₃. **Vitamin D₃-1000** is available in bottles of 100 vegetarian capsules. (C, MS)

Vitamin D₃-5000: Daily Vitamin D₃ is *colecalfiferol* made from lanolin derived cholesterol from the wool of sheep. Vitamin D₃ is the kind your body makes; which makes it more efficient in absorption. Your use less also Vitamin D₂ is not the kind the body makes. It's therefore less efficient & you use more. It's also cheaper usually. Each capsule contains 5000 IU of vitamin D₃. **Vitamin D₃-5000** is available in bottles of 100 vegetarian capsules. (C, MS)

B Vitamins

Activated B6: Conventional vitamin B6 is in the form of pyridoxine hydrochloride. In order for the body to use pyridoxine hydrochloride, it must be processed by the body into the coenzyme form, Pyridoxal-5-phosphate. The processing of pyridoxine requires two energy utilizing steps, catalyzed by the enzymes pyridoxal kinase and pyridoxine phosphate oxidase. Daily **B6** is the coenzyme form, eliminating the need for processing by the body. It is like a plug in module and is much more efficiently used than the regular type. Each capsule contains 50 mg of B6 and is available in bottles of 100 vegetarian capsules. (C, MS)

Activated B-12: **Activated B-12** contains equal amounts of 5-deoxyadenosyl cobalamin and methylcobalamin. These are the active forms of vitamin B-12. For normal absorption, B-12 requires intrinsic factor; but even without intrinsic factor, 1-2% of B-12 can be absorbed. Therefore, since there are 500 mcg per capsule, considerably more than the RDA of 2 mcg should be absorbed by anyone taking it. **Activated B-12** is available in bottles of 180 vegetarian capsules. (C, MS)

Activated B-Complex: Each capsule contains active forms of B6 (10 mg), B12 (20 mcg), thiamine (10 mg), and riboflavin (10 mg). There is also niacinamide (40 mg), niacin (20 mg), folic acid (200 mcg), pantothenic acid (10 mg), PABA (20 mg), biotin (150 mcg), choline (10 mg), and inositol (20 mg). All of the B vitamins are provided in the forms best utilized by the human body. **B-Complex** is available in bottles of 100 and 250 vegetarian capsules. (C, MS)

Folic Acid: Each tablet contains 800 mcg of folic acid in a slotted tablet that can be broken in half for a 400 mcg dose. **Folic Acid** is available in bottles of 100 and 250 tablets. (C, MS)

Niacin: Niacin (nicotinic acid) is used in the body to make nicotinamide adenine dinucleotide (NAD) and NAD-phosphate, which supplies energy for many catabolic and anabolic reactions. Niacin will cause a transient niacin flush with redness and a burning sensation in the skin. The niacin flush is uncomfortable but harmless for most people - possible exceptions are persons with asthma or peptic ulcers. **Niacin** is available in bottles of 200 tablets supplying 100 mg per tablet and 56 mg of calcium per tablet. (C, Calcium Sulfate, CS, MS)

C Vitamins

Acerola Cherry: Our all-natural vitamin C tablets from acerola cherries can be chewed or swallowed, and have a pleasant tart flavor. Each tablet contains 60 mg of vitamin C. **Acerola C** is available in bottles of 60 tablets. (Stearate, Sorbitol, Vanilla)

Berry-C: **Berry-C** is a whole food extract of Amla (Indian Gooseberry) and Acerola Cherry which provides 250 mg of vitamin C. **Berry-C** also provides a generous dose of quercetin (50 mg) and citrus bioflavonoids (50), which occur naturally with vitamin C. **Berry-C** is available in bottles of 60 tablets. (C, CS, SD, SA, MS)

Lemon C: **Lemon C** contains 500 mg of vitamin C and 150 mg lemon bioflavonoid complex. **Lemon C** is available in bottles of 120 capsules.

Spectra-Scorb: **Spectra-Scorb** vitamin C is in the form of mineral ascorbates; containing 500 mg of vitamin C per tablet, plus 100 mg of mixed bioflavonoids and the following amount of minerals from the mineral ascorbates: potassium (35 mg), calcium (26.5 mg), magnesium (13.5 mg), zinc (1.75 mg), and manganese (630 mcg). **Spectra-Scorb** is an excellent source of vitamin C as well as minerals that are easily absorbed. **Spectra-Scorb** is available in bottles of 100 tablets. (Calcium phosphate, C, MS, Stearate, Silica)

Spectra-Scorb Plus: **Spectra-Scorb Plus** contains mineral ascorbates in an 8 hour sustained release tablet, with a chlorophyll coating. Each tablet contains 1000 mg of vitamin C per tablet, along with 100 mg of the following blend: hesperidin, rose hips, acerola cherry extract, apple pectin, citrus extract, grapefruit extract, lemon bioflavonoids and rutin. The mineral ascorbates provide the following amounts of elemental minerals: calcium (55 mg), magnesium (24 mg), zinc (2.5 mg), potassium (29 mg) as citrate-aspartate, not ascorbate), manganese (125 mg), and molybdenum (200 mcg). **Spectra-Scorb Plus** is available in bottles of 120 tablets. (C, SA, MS, SD, CL)

Spectra-Scorb Powder: **Spectra-Scorb Powder** is a blend of calcium, magnesium, potassium and zinc ascorbates with quercetin and lemon bioflavonoids. 1/2 teaspoon contains 1000 mg of vitamin C. **Spectra-Scorb Powder** is available in a 10 oz jar. (NE)

E Vitamins

Dry Vitamin E: This Dry Vitamin E contains 400 IU (d-alpha tocopheryl acid succinate) from soy oil in vegetarian capsules. This form has less oil and a longer shelf life than the oil type capsules. **Dry Vitamin E** is available in bottles of 100 vegetarian capsules. (C, MS)

Nutri-E: **Nutri-E** is a whole food extract of annatto seeds and contains no wheat, soy or other major food allergens. Each capsule contains 100 IU of food source vitamin E. **Nutri-E** is available in bottles of 60 vegetarian capsules. (C)

Tocotrienols: Each softgel capsule contains 300 mg of tocotrienol blend from rice, and 100 IU of d-alpha tocopherol vitamin E and 50 mg of mixed tocotrienol. **Tocotrienol** is available in bottles of 60 softgel capsules. (rice bran oils, beef gelatin capsules (Gelatin, Glycerin and Water))

Vitamin E: Natural d-alpha tocopherol from mixed tocopherols is the most natural form of vitamin E. While vitamin E activity is only claimed for the alpha tocopherol, the other naturally occurring tocopherols may

have biological activity as well. This high quality natural **Vitamin E** is available in two strengths: 400 unit (100 softgel capsules), and 1000 unit (50 softgel capsules). (SO, Beef Gelatin Capsules)

Calcium—Minerals

Cal II:™ A very alkaline calcium supplement, utilizing a natural source of calcium carbonate and calcium hydroxide with brewer's yeast for added assimilation (Reams formula). Six capsules provide 1000 mg of elemental calcium. **Cal II™** is available in bottles of 100 and 250 capsules. (Brewer's Yeast, C, SD) RF, SF, V *This product is also available in a yeast free form. **Cal II Yeast Free** is available in bottles of 100 and 250 vegetarian capsules. (C, SD)

Cal II Supreme: **Cal II Supreme** is a highly alkalizing mineral supplement made from premium quality coral calcium from Okinawa, Japan, and natural calcium hydroxide from earth deposits in the USA. Each capsule contains 200 mg of calcium. Although primarily a calcium supplement, **Cal II Supreme** contains small amounts of numerous naturally occurring trace elements and 1 mg each of cesium and rubidium and 20 mg soy protein. **Cal II Supreme** has been carefully formulated to provide powerful ionic alkaline support by supplying highly active mineral derived anions. This product contains soy protein. **Caution:** This product contains powerful alkaline minerals: never chew capsules and take with at least 8 oz of water. **Cal II Supreme** is available in bottles of 100 and 250 vegetarian capsules. (MS, SD) GF, RF, V

Calcium Aspartate: **Calcium Aspartate** is a calcium salt of the amino acid, aspartic acid, that has a neutral reaction in the body. Medical research has shown it to be a well absorbed form of calcium supplementation, supplying 100 mg of elemental calcium. Calcium aspartate and citrate are best for people who are uncertain of the acid-base balance of their bodies. This is a great source of calcium for everyone. **Calcium Aspartate** is available in bottles of 150 vegetarian capsules. (MS, SD)

Calcium Citrate: Calcium Citrate is another form of calcium that has a neutral reaction in the body. Calcium citrate is a calcium salt of citric acid, which is an intermediate in the "Krebs Cycle". This product is also a form of calcium that works well for everyone. There is 100 mg of elemental calcium per capsule. **Calcium Citrate** is available in bottles of 150 vegetarian capsules. (Vegetable Streatate, SD)

Calcium Gluconate: **Calcium Gluconate** is a neutral, easily assimilated form of calcium. This is a calcium salt of gluconic acid made from calcium carbonate and gluconic acid from beets. There is 40 mg of

elemental calcium per capsule. **Calcium Gluconate** is available in bottles of 100 and 250 vegetarian capsules (MS, SD) and 7 oz jars of powder. (NE)

Calcium Lactate: This milk type calcium is from a non-dairy source. It is naturally produced by fermentation of calcium carbonate with sugars and starches from potatoes. Calcium lactate is a more acid reacting form of calcium providing 46.66mg of elemental calcium per 6 capsules. **Calcium Lactate** is available in bottles of 100 and 250 vegetarian capsules. (MS, SD)

Calcium Orotate: A very well absorbed form of calcium popularized by Dr. Hans Neiper of Germany. Each capsule contains 60 mg of calcium from 545 mg of calcium orotate. **Calcium Orotate** is available in bottles of 90 vegetarian capsules. (C, SD)

Coral Calcium: **Coral Calcium** is the highest quality Sango coral from Okinawa, Japan. Coral calcium is taken from land deposits of ancient coral, thereby assuring that coral reefs in the ocean are not disturbed. Coral calcium from land deposits are free of pollutants because the coral was formed long before modern man was there. All Daily coral products are mined and processed by strict Japanese pharmaceutical standards and further processed and packaged under strict American standards at Daily Manufacturing's FDA inspected facility. Daily **Coral Calcium** is ground extremely fine (7-10 micron); assuring that all of the calcium easily forms a colloidal suspension and is easily absorbed. Each capsule contains 400 mg of calcium. **Coral Calcium** is available in bottles of 90 vegetarian capsules or 8 oz. containers. (NE)

Coral Calcium, Magnesium & Vitamin D₃: Coral calcium plus magnesium and vitamin D₃ in one capsule! This coral calcium combination contains 500 mg calcium (calcium carbonate) from Okinawa, Japan, 250 mg magnesium (carbonate) and 200 IU of vitamin D₃ per three capsules. **Coral Calcium-Magnesium-Vitamin D₃** is available in bottles of 120 vegetarian capsules or 5 oz. containers. (NE)

Dairy Calcium: **Dairy Calcium** is a high quality well absorbed form of pH neutral dietary calcium. Each capsule contains 175 of calcium. **Dairy Calcium** is available in bottles of 90 vegetarian capsules. (MS, SD) * Does Contain Milk.

Minerals

Bone-Builder: A wonderful blend of calcium (500 mg) (from calcium carbonate, citrate, phosphate and lactate), magnesium (250 mg), vitamin D₃ (200 IU), vitamin K₁ (30 mcg), vitamin C (100 mg), silicon (10 mg), boron (1 mg) and betaine hydrochloride (200 mg) per two capsules. **Bone-Builder** is available in bottles of 120 vegetarian capsules. (SA, CS)

Chromium Picolinate: There are a number of chromium supplements on the market including GTF chromium, chromium polynicotinate, and others. All of the better chromium supplements, including chromium picolinate, are in a tri-valent chemical state. Chromium picolinate has the advantage of being hypoallergenic since there is no yeast. Furthermore, most of the chromium research has used the picolinate form of chromium. Chromium picolinate is the best researched and most reliable form available. Each capsule contains 200 mcg of chromium from chromium picolinate. **Chromium Picolinate** is available in bottles of 100 vegetarian capsules. (MS) 

CAUTION: Because chromium can increase insulin sensitivity, this may alter insulin requirements in diabetics. There is some evidence that persons with reactive hypoglycemia may also need to use caution with chromium. This applies to all forms of chromium, not just chromium picolinate. For this reason we need to include the following warning - Diabetics/Hypoglycemics: Use only under a physician's supervision.

Colloidal Silver: This colloidal silver suspension, at 20 ppm, is the ideal concentration. **Colloidal Silver** is available in 4, 8 or 32 fl. oz. bottles. (NE) 

Dolomite: Each capsule contains 170 mg of calcium and 94 mg of magnesium from dolomitic lime. This dolomite has been assayed for lead to assure that only very small trace amounts are present, posing no health hazard. **Dolomite** is available in bottles of 100 and 250 vegetarian capsules. (NE) 

Ferro-Tonic: **Ferro-Tonic** is an iron supplement in easy to assimilate liquid form. Eight drops contain 10 mg of elemental iron from a naturally occurring mined ferrous sulfate. **Ferro-Tonic** is available in a 2 fl. oz. dropper top bottle. (Distilled Water) 

K-Min: **K-Min** is a blend of **Min-Col™** (315 mg) and diatomaceous earth (105 mg), supplying 78 mg of elemental calcium as calcium phosphate per capsule. **Caution: Pregnant women and pregnant animals** should never use this product. **K-Min** is available in bottles of 100 and 250 vegetarian capsules. (NE) 

Lime Water: A saturated calcium solution made with water from a specific well with a special sulfur compound to make the calcium more available. Two tablespoons contains 27.2 mg of calcium as calcium hydroxide solution from lime. **Lime Water** is available in 12 and 32 fl. oz. containers. (Natural Sulfur Water) 

Liqui-Min: We use mineral water from T.J. Clark in Utah. This source of ionized and colloidal liquid minerals is the original colloidal mineral water using lignite, which is derived from ancient vegetation (in between peat moss and coal). Water is slowly dripped through the lignite, allowing it to accumulate the rich natural blend of easily assimilated trace elements. This is an excellent, hard-to-find source of trace elements. **Liqui-Min** is available in 32 fl. oz. bottles. (NE) 

Magnesium Aspartate: Magnesium aspartate is a magnesium salt of the amino acid, aspartic acid, that has a neutral reaction in the body. Medical research has shown it to be a well absorbed form of magnesium supplementation. Each capsule supplies 100 mg of elemental magnesium. Magnesium aspartate is an excellent choice for everyone needing supplemental magnesium. **Magnesium Aspartate** is available in bottles of 150 vegetarian capsules. (MS, SD) 

Magnesium Citrate: Magnesium citrate is a neutral salt of citric acid, an intermediate in the "Krebs Cycle". This is another form of magnesium that is well absorbed and that works well for everyone. There is 100 mg of elemental magnesium per capsule. **Magnesium Citrate** is available in bottles of 150 vegetarian capsules. (MS, SD) 

Manganese: **Manganese Citrate** contains 5 mgs of manganese per tablet. **Manganese Citrate** is available in bottles of 100 tablets. (C, CS) 

Mincol: TM Colloidal size particles extracted from soft rock phosphate, from fossil deposits of ancient bones. This is a source of calcium and other minerals in a phosphatic colloidal form, and is also a rich source of the phosphate anion. Three capsules supply 324 mg of elemental calcium. **Min-Col**TM is available in bottles of 100 and 250 vegetarian capsules. (NE) 

Potassium Aspartate: **Potassium Aspartate** is a salt of the amino acid, aspartic acid, that has a neutral reaction in the body. It is a well absorbed form of potassium supplying 99 mg of elemental potassium from 450 mg of potassium aspartate per capsule. Potassium aspartate is an excellent choice for everyone needing supplemental potassium. **Potassium Aspartate** is available in bottles of 150 vegetarian capsules. (C, MS) 

Potassium Citrate: **Potassium Citrate** is a salt of citric acid that supplies 99 mg of elemental potassium from 275 mg of potassium citrate per capsule. This product is a well absorbed form of potassium. **Potassium Citrate** is available in bottles of 150 vegetarian capsules. (C, MS) 

Selenium: Each tablet contains 100 mcg of selenium as an amino acid chelate. Each tablet is slotted so it can be easily broken in half for a 50 mcg dose. **Selenium** is available in bottles of 60 tablets. (C, CS) 

Tri-Min: **Tri-Min** is a combination of three essential trace elements. Each tablet supplies: zinc (15 mg as amino acid chelate), manganese (10 mg as amino acid chelate), and selenium (50 mcg organically bound to yeast). **Tri-Min** is available in bottles of 100 tablets. (C, Deep Mined Dicalcium Phosphate, Vegetable Stearates, Silica) 

Zinc: Each tablet contains 30 mg of zinc as an amino acid chelate. Each tablet is slotted so it can be easily broken in half for a 15 mg dose. **Zinc** is available in bottles of 60 tablets. (C, CS) 

Digestive Care

Betaine Hydrochloride: Each capsule contains 10 grains, 648 mg of betaine hydrochloride, for use in assisting digestion. **Betaine Hydrochloride** is available in bottles of 100 and 250 vegetarian capsules. (C, SD) 

Activated Charcoal: Our activated charcoal capsules are made from plant products only. Charcoal is a powerful absorber of gas and toxins, but may also absorb nutrients and medications and should be used separately from them when possible. Please consult your doctor or pharmacist about use with medications. There are 260 mg of charcoal per capsule. **Charcoal** is available in bottles of 60 and 120 vegetarian capsules. (NE) 

Colon-Aid: Three capsules of **Colon-Aid** contain 750 million live *Lactobacillus acidophilus*, 750 million *Bifidobacterium bifidus* plus 1000 mg of Fructooligosaccharides. **Colon-Aid** is kept refrigerated until shipped to keep the bacteria alive and healthy, and should be refrigerated after receiving it for maximum potency. **Colon-Aid** is available in bottles of 100 vegetarian capsules. (C, MS) 

Digestine: **Digestine** contains a broad spectrum of digestive enzymes. Each tablet contains: Pancreatin (140 mg of porcine (contains 3600 USP amylase units, 630 USP lipase units and 3800 USP protease units)), mycozyme (150 mg, an amylase enzyme isolate from fungi), pepsin (70 mg), betaine HCl (70 mg), pancreatine (70 mg, contains 420,000 USP papain units), and iron ox bile (65 mg bovine). The pancreatin is enteric coated for release in the small intestine (that will not release with pH below 6.8) thereby preventing denaturation of the active enzyme. In other words, we have coated the pancreatin so that it will not dissolve until it gets into the small intestine. **Digestine** is available in bottles of 100 tablets. (C, Maltodextrin, Vegetable Stearates, MS) 

GlutenAce: It is essential for persons with gluten intolerance to strictly avoid gluten containing foods. However, it is very difficult to completely eliminate all gluten, especially when eating away from home. **GlutenAce** is designed to help digest small amounts of gluten resulting from accidental contamination and to reduce gastrointestinal inflammation from eating gluten. Each capsule contains: 100 mg of BioCore DPP IV, protease enzymes from *Aspergillus oryzae* (30,000 HUT), protease from *A. oryzae* (500 DPP-IV) and protease AM from *Aspergillus melleus* (8.5

AP), 300 mg of bromelain (360 GDU), and 100 mg of quercetin. **GlutenAce** is available in bottles of 60 vegetarian capsules. (C, MS, SD).

L-Salivarius: A potent probiotic supplement with approximately 2 billion live *Lactobacillus salivarius* bacteria and 100 mg of fructooligosaccharides per capsule. This combination of probiotics and prebiotics can help establish a healthy intestinal flora. **L-Salivarius** is available in bottles of 120 vegetarian capsules. (C, SD, MS)

Miracle 7 Colon Cleanser: A combination of psyllium seed husk (280 mg), bentonite (160 mg), citrus pectin (80 mg), wheat grass (96 mg), acidophilus mix (40 mg), apple fiber (120 mg), as well as an herbal blend (22 mg): gentian, golden seal root, buckthorn, rhubarb, cascara sagrada, whole leaf aloe vera and cinnamon. This blend is a complete herbal colon health program. **Miracle 7 Colon Cleanser** is available in bottles of 120 vegetarian capsules. (NE)

Nattokinase: **Nattokinase** is a very specialized substrate specific fibrinolytic enzyme produced by fermentation of soybeans with *Bacillus subtilis natto*. Other enzymes have fibrinolytic activity, but only true nattokinase has been demonstrated to be absorbed after oral ingestion as an active enzyme, and to have physiological efficacy. **Caution:** Although nattokinase is a safe whole food extract, caution should be used when using it with blood-thinning medications and/or high doses of supplements known to act as blood thinners such as vitamin E and Gingko Biloba. Each capsule contains 50 mg of nattokinase. **Nattokinase** is available in bottles of 60 vegetarian capsules. (C)

Para-Min: A blend of black walnut hull powder (200 mg), diatomaceous earth (50 mg), fumaric acid (100 mg), ginger root (50 mg), blue vervain (*Verbena spuria* 50 mg), wormwood (50 mg), garlic bulb (50 mg), and cayenne pepper (50 mg) per capsule. **Para-Min** is available in bottles of 180 vegetarian capsules. (MS)

Psylli-Yum: **Psylli-Yum** is both a heart healthy product and promotes intestinal health and regularity. Diets low in saturated fat and cholesterol that include 3.5 g. of soluble fiber per day may reduce the risk of heart disease. Just one serving of **Psylli-Yum** provides 2.8 g. of soluble fiber. This product contains vitamin C (450 mg), calcium (carbonate, 144 mg), psyllium (*Plantago asiatica*) (4.4 g), bentonite (120 mg), and aloe concentrate (60 mg) per 1 heaping teaspoon. **Psylli-Yum** is available in 1 lb jars. (Citric Acid, Natural Orange and Vanilla Flavors, Stevia, Lo Han Go)

Vega-Lax: Each capsule contains cascara sagrada bark (*Rhamnus purshiana*, 194 mg), senna leaf (*Cassia marilandica*, 194 mg), glucomannan (35 mg), and dehydrated aloe vera gel 2.5 mg (equivalent to 700 mg of liquid gel). **Vega-Lax** is available in bottles of 100 vegetarian capsules. (C, MS, SD)

VegeZyme: **VegeZyme™** is a powerful, all natural vegetarian, enzyme supplement. **VegeZyme™** allows vegetarians to enjoy optimal digestive health while maintaining a strictly vegetarian supplement program. This product contains digestive enzymes that naturally occur in the *Aspergillus oryzae* extract (amylase 2400 DU, lactase 400 ALU, protease 4.5 600 HUT, lipase 100 FIP and cellulose 20 CU). This product also contains bromelain 720000 FCCPU and papaya leaf 50 mg. **VegeZyme™** is available in bottles of 90 vegetarian capsules. (Enzymes derived from Pineapple, *Rhizopus Oryzae*, *Aspergillus Oryzae* and *Trichoderma Lonibrachiatum*, C and Papaya) 

Herbs

Barley Grass - Bulk Dehydrated Powder: Organically grown barley grass is harvested after 200 days of growth in the spring, when nutrient density is at its peak. The barley grass is then milled using a patented cryogenic milling process that preserves all of the nutrients, insuring that the final product is a fresh raw food. This product only contains barley grass, a truly exceptional food, and can be mixed with water or juices for a healthful beverage. **Dehydrated Barley Grass** is available in 1 lb canisters. (NE) 

Black Walnut Tincture - Green: **Black Walnut Tincture** is made from green, black walnut hulls with distilled water and food grade alcohol. Twenty five drops contains 1.2 ml of black walnut tincture. **Black Walnut Tincture** is available in 4 fl. oz. bottles. (Water, Food Grade Alcohol, Vitamin C) 

Cat's Claw Extract / Herb Blend: This quality herb from South America is provided in a blend of whole raw herb and herbal concentrate that is standardized to 3% sterol potency. Each capsule contains 300 mg of cat's claw and 100 mg of cat's claw extract. **Cats Claw** is available in bottles of 60 vegetarian capsules. (MS) 

Cayenne Pepper: Cayenne is a time tested herbal remedy that remains popular to this day. The capsule form provides the benefits of cayenne without the pain. This high quality cayenne pepper is rated at 40,000 heat units. Each capsule contains 260 mg of cayenne and is available in bottles of 90 vegetarian capsules. (NE) 

Chia Mia Seeds: Daily "**Chia Mia**" seeds are organically grown in South America. Chia seeds are a rich source of complete protein, high in omega-3 fatty acids, and so high in fiber that many people use them as a mild laxative and stool softener. Chia seeds are a high energy food, and can be used whole or ground into a flour. They are the natural mixed color seeds that have been used for thousands of years. These seeds have all of the natural pigments, and have not been subjected to selective culture to produce a visually uniform pigment-free grain. One tablespoon contains 15 g of Chia Seeds. **Chia Mia** seeds are available in 1 and 3 lb. containers. (NE) 

Echinacea Root: *Echinacea angustifolia* is also known as the purple coneflower. This herb was valued by the Native Americans and frontiersmen as a remedy for snake bites and infections from wounds. Echinacea is still one of the most popular herbal medicines today, though not for snake bites. Each capsule contains 350 mg of pure *Echinacea angustifolia* powder and 100 mg of *Echinacea purpurea* extract (4% total phenolics). **Echinacea** is available in bottles of 60 vegetarian capsules. (NE)

Garlic Fresh: Daily **Garlic Fresh** provides all of the active factors of fresh garlic that made it a cornerstone of natural medicine for centuries, without the garlic breath. The proprietary processing of the garlic bulbs plus the enteric coating makes it possible for **Garlic Fresh** to deliver the bioactive components of garlic directly to the small intestine, preventing burping, breath odor and protecting the garlic from degradation by stomach acids. Each capsule has 500 mg. of garlic concentrate which is equivalent to 3 grams of fresh garlic. **Garlic Fresh** is available in bottles of 90 vegetarian capsules. (SO, Gelatin, Bees Wax, Water, Lecithin, Calcium Carbonate, Enteric Coating (C) Aqueous Shellac, MS, Beef Gelatin Capsules)

Garlic Plus: This supplement contains 450 mg of the same deodorized garlic as in the **Sensible Garlic**, but with 100 mg of hawthorn (*Crataegus Oxyacantha*) berry. **Garlic Plus** is available in bottles of 150 vegetarian capsules. (SD)

Garlic-Sensible: Modern research has demonstrated that most of the biologically active chemicals and health benefits of garlic (*Allium sativum*) can be preserved when garlic is properly deodorized. This deodorized garlic concentrate is 2.5 times more potent than fresh garlic, yet with much of the aroma normally associated with garlic deactivated. Each capsule contains 600 mg of deodorized garlic and is available in bottles of 150 vegetarian capsules. (MS, SD)

Ginger Root: Ginger (*Zingiber officinale*) is a popular spice, especially in oriental cooking, as well as a warm and stimulating medicinal herb. Ginger is often used externally in warm baths. Ginger root powder is also available in capsule form. Each capsule contains 280 mg of certified organic ginger root powder (*Zingiber officinale*). **Ginger Root Powder** is available in bottles of 100 vegetarian capsules or 16 oz containers. (NE)

Ginkgo Biloba: The ginkgo or maidenhair tree (*Ginkgo biloba*) has been considered almost magical in oriental medicine. Each capsule contains 60 mg of 50:1 ginkgo biloba standardized extract (with 24% ginkgo flavoglycosides) and 300 mg of whole leaf *Ginkgo biloba*. **Ginkgo Biloba** is available in bottles of 90 vegetarian capsules. (C, MS)

Goldenseal Root: The root of the goldenseal plant (*Hydrastis canadensis*) is probably the most important herb in American folk medicine. It is often used both internally and externally, and its

astringent and antiseptic properties are well established. Excessive internal use will cause irritation to mucus membranes, so this herb requires moderation in use. Each capsule contains 500 mg of goldenseal root and is available in bottles of 75 vegetarian capsules. (MS)

Green Drink: Daily **Green Drink** mix is a blend of dried green vegetable juices blended with chlorella and stevia to provide a nourishing nutritional supplement. Unlike most other green drinks, Daily **Green Drink** contains no major allergen foods in its ingredients. The vegetable juice blend is a combination of alfalfa (*Medicago oleracea*), broccoli (*Brassia oleracea*), spinach (*Spinacia oleracea*), chlorella (*Chlorella pyrenidosa*), and stevia (*Stevia rebaudiana*). **Green Drink** is available in an 8 oz jar. (NE)

Milk Thistle: **Milk Thistle** is a potent blend of 250 mg standardized extract of milk thistle (*Silybum marianum*), (80% silbinin) and 250 mg of whole milk thistle seed powder. This combination provides all of the active ingredients of milk thistle in one capsule. **Milk Thistle** is available in bottles of 60 vegetarian capsules. (NE)

Pau D'Arco: A traditional herbal remedy from the Brazilian rain forest, Pau D'Arco (*Tabebuia impetiginosa*) contains 425 mg per capsule. **Pau D'Arco** is available in bottles of 250 vegetarian capsules. (MS)

Power Caps: This is not really a vitamin and mineral supplement as much as it is a concentrated natural food. The juices of organically grown young wheat grass, young barley grass, and beets are dehydrated at low temperatures and carefully handled to provide all the nutritional factors found in the raw juices. **Power Caps** are rich in vitamins, minerals, active enzymes, chlorophyll, carotenoids, flavonoids, and other naturally occurring phytochemicals. Each capsule contains 185 mg each of the dehydrated juices. **Power Caps** are available in bottles of 90 vegetarian capsules. (MS, SD)

St. John's Wort: This is a high quality standardized extract of St. John's Wort. Each capsule contains 300 mg of extract, standardized to 0.3% hypericin and 3% hyperforin. **St John's Wort** is available in bottles of 60 vegetarian capsules. (C, MS, SD)

Valerian Root: Valerian (*Valeriana officinalis*) is also known as Allheal and Garden Heliotrope. Valerian is native to Europe where it has been a common medicinal herb since ancient times, but has become naturalized to the northeastern United States. Valerian is now a mainstay of American folk medicine. Each capsule contains 350 mg of valerian root and 150 mg valerian root extract. **Valerian Root** is available in bottles of 90 vegetarian capsules. (NE)

Wheat Grass Juice Dehydrated: A completely natural food concentrate. The juice is prepared from young organically grown wheat grass that is planted in the fall and harvested after a long dormant winter period in the early spring, just before the first jointing. The wheat

grass is then juiced and dehydrated using a low temperature process so that all the beneficial properties of the raw juice are retained. Each capsule contains 500 mg and is available in bottles of 150 vegetarian capsules. (C, MS, SD)

Wheat Grass Bulk Powder: This product is the same organic wheat grass from which the above juice is prepared. This bulk form is the whole wheat grass that is dehydrated and ground into a very fine powder. It contains all the fiber and other properties of natural wheat grass. **Wheat Grass Bulk Powder** is available in 1 lb canisters. (NE)

Special Combinations

Ener-Cell: A cellular energy and protective formula with alpha-lipoic acid (300 mg), L-carnitine L-tartrate (100 mg), coenzyme Q-10 (50 mg), and curcumin (150 mg) per capsule. **Ener-Cell** is available in bottles of 60 vegetarian capsules. (C)

Eye-Vite: **Eye-Vite** is a protective formula for eyes based on the latest scientific research. **Eye-Vite** combines the most important nutrients at the optimal dosages for maintaining visual health. Lutein, zeaxanthin, lycopene and beta carotene are pigments and antioxidants that protect the macula. People with low macular density of these pigments have been shown to be at increased risk for macular degeneration. Gamma-aminobutyric acid (GABA) is an important neurotransmitter that has been shown to improve visual function as well as cognitive and motor functions. Bilberry extract and vitamin E are potent antioxidants that help prevent oxidative damage to the eyes. Zinc is an important healing agent that has been shown to protect against vision loss in adults. **Eye-Vite** is available in bottles of 60 vegetarian capsules. (Medium Chain Triglycerides, Hypronellose, Lecthin, Glycerolmenstearate)

Glucosamine-Chondroitin Balanced Blend: **Glucosamine-Chondroitin Balanced Blend** is a blend of nutrients for the support of bones and joints based on the recommendations in the book "The Arthritis Cure". Each capsule contains glucosamine sulfate (250 mg), chondroitin sulfate (200 mg), vitamin C (50 mg), and manganese (citrate) (1 mg). **Glucosamine-Chondroitin** Balanced Blend is available in bottles of 90 and 180 vegetarian capsules. (C, MS, SD)

Metabolic Factors: **Metabolic Factors** is a combination of 3 nutrients that are essential for normal metabolism. Choline is a methyl donor in anabolic biosynthesis, carnitine is required for the utilization of fat for energy, and chromium is required for normal hormonal regulation of metabolism. Choline and carnitine have been shown to work synergistically in the control of fat metabolism. **Metabolic Factors** is available in bottles of 120 tablets. (C, MS, SD)

Multi-Vim: This hypo-allergenic, vegetarian multi vitamin and mineral supplement has a chlorophyll coating. Three tablets supply vitamin A from palmitate and beta-carotene (10,000 IU), vitamin D-2 (400 IU), vitamin B-1,2,6, pantothenic acid, choline, inositol, & PABA (75 mg each), niacinamide (100 mg), vitamin B-12 (100 mcg), biotin (75 mcg), folic acid (400 mcg), vitamin C (250 mg), hesperedin (5 mg), vitamin E (150 IU of d-alpha tocopherol succinate), betaine HCl, lemon bioflavonoids, rutin & glutamic acid (25 mg), iodine from kelp (200 mcg), and the following minerals as amino acid chelates with rice protein - calcium (50 mg), iron (18 mg), magnesium (25 mg), manganese (6.1 mg), potassium (10 mg), zinc (15 mg), copper (2 mg), chromium, & selenium (100 mcg.) and molybdenum (200 mcg). Taking this supplement three times per day will result in maximal utilization of all the nutrients. The tablets are designed to be easily swallowed. **Multi-Vim** supplies optimal amounts of most nutrients and is a great foundation for any nutritional program. **Multi-Vim** is available in bottles of 100 tablets. (C, Vegetable Stearate, MS, SA, Silica Chlorophyll)

Prosta-Min: A source of nutrients that are important for prostate health in men. This product should not be used as a substitute for medical care. It is not a treatment for prostate cancer and self treatment could result in a treatable cancer not being detected. Each tablet of **Prosta-Min** contains: vitamin B-6 (as Pyridoxine Hydrochloride 5 mg), zinc (as zinc gluconate 15 mg), saw palmetto extract (*Serenoa repens*, berry, 160 mg, standardized to contain 85-95% fatty acids and sterols), pumpkin seed oil (*Cucurbita pepo*, 40 mg), Pygeum extract (*Pygeum africanum*, bark, 10mg, standardized to contain 12 % Sterols), Uva-Ursi extract (*Arctostaphylos uva-ursi*, leaf, 5 mg, standardized to contain 10% Arbutin). **Prosta-Min** is available in bottles of 90 softgel capsules. (Gelatin, Glycerin, Soy Lecithin, Yellow Beeswax, Caramel Color, Titanium Dioxide Color)

Vascu-Min: A blend of minerals and bromelain (a protein digestive enzyme from pineapple) with 6 capsules supplying: magnesium (260 mg from magnesium citrate), potassium (80 mg from potassium citrate), and bromelain (280 mg) with 1200 GDU activity per gram (1 GDU will digest 1 mg of amino nitrogen from gelatin in 20 minutes). **Vascu-Min** is available in bottles of 180 vegetarian capsules. (C, MS)

Vitality 4 Men: **Vitality 4 Men** is a combination of herbs and nutrients provided in the ideal dosages to optimize hormonal health in men. None of the ingredients are known to have undesirable side effects when used as directed. Arginine is known to reduce blood pressure in some people and caution should be observed when using this product in combination with anti-hypertensive medication. Three capsules contain L-Arginine (1200 mg), DHEA (*dehydroeplandosterone*) (25 mg), MACA 4:1 extract (*Lepidium meyerii* root extract (750 mg), Horny Goat Weed Extract (*Epimedium sagittatum* whole plant standardized in 20% flavonoids, (500 mg). **Vitality 4 Men** is available in bottles of 90 vegetarian capsules. (MS, C)

Super Nutrition

5-HTP (5-hydroxytryptophan): Each capsule contains 50 mg of 5-HTP extract from *Griffonia simplicifolia*. Each batch is tested to assure absence of "peak X". Which is suspected to be involved in the toxic effects of L-Tryptophan produced by genetically engineered bacteria. **5-HTP** is available in bottles of 30 vegetarian capsules. (C) 

Algazim: **Algazim** is a special low salt Norwegian fjord kelp that is rich in iodine (225 mcg per capsule) and contains small amounts of numerous other trace elements. **Algazim** is also rich in vitamin A (carotenoid) and is one of the few vegetarian sources of vitamin B12. **Algazim** kelp is quickly frozen and dried after harvesting, thereby preserving all of the natural vitamins and enzymes. **Algazim** is available in 100 and 250 count bottles or 10 oz powder jars. (NE) 

Alpha-Lipoic Acid: Alpha-lipoic acid is a dual purpose nutrient: an essential cofactor in energy metabolism and powerful antioxidant that is especially useful in the mitochondria of cells. Each bottle contains 60 vegetarian capsules with 300 mg of alpha-lipoic acid. (NE) 

Beta 1,3 Glucan: This high potency beta glucan is derived from the cell wall of the yeast (*Saccharomyces cerevisiae*). This is the type recognized by the white blood cells known as macrophages. **Beta 1,3/1,6-D-Glucan** contains 100 mg of beta glucans and is available in bottles of 60 vegetarian capsules. (C) 

Brewer's Yeast: Our **Brewer's Yeast** is a rich source of amino acids and B vitamins, containing 500 mg of natural brewer's yeast. **Brewer's Yeast** is available in bottles of 250 tablets. (NE) 

CLA: This high quality CLA blend is from safflower oil with 74-83% CLA. The CLA consists of equal part *cis-9*, *trans-11* and *trans-10*, *cis-12 isomers*. Each capsule contains 1,000 mg of CLA and is available in bottles of 60 softgel capsules. (Caramel Color, Gelatin, Glycerin, St. John's Bread Ext., Titanium Dioxide Color, Beef Gelatin Capsules) 

Colostrum: Colostrum is "a specialized secretion of the mammary glands that is produced during the first few days after parturition. It differs from typical milk in its higher content of protein (as albumin and globulins), antibodies, vitamins, and minerals and its lower content of sugars and fats, it also supplies essential immune bodies to the young animal and aids in the establishment of the intestinal function" (Websters Third New International Dictionary). Colostrum contains special anti-viral and anti-bacterial factors such as lactoferrin, interferons, lysozyme, and special fatty acids. This is dehydrated and encapsulated with 300 mg per capsule. **Colostrum** is available in bottles of 100 vegetarian capsules. (MS, SD) 

DHEA: This is pure pharmaceutical grade DHEA (dehydroepiandrosterone) and not the Wild Mexican Yam extract. DHEA has 25 mg. per capsule and is available in bottles of 90 vegetarian capsules. (C, MS) 

(EPA) Omega-3 Fish Oil: This molecularly distilled fish oil has twice the concentration of EPA & DHA as most fish oil supplements. There is 360 mg. EPA and 240 mg DHA from sardines, anchovies, culpea, sprat, and salmon. Vitamin E (5 mg. mixed tocopherols) is added to prevent oxidation. **Daily Omega-3 Fish Oils** are available in bottles of 60 and 120 softgel capsules. (Purified Water, Mixed Tocopherols, Beef Gelatin Capsules, Glycerin) 

Evening Primrose Oil: Oil of the evening primrose (*Oenothera lamarkiana*) is a rich source of gamma linolenic acid (GLA). Each capsule contains 500 mg of cold-pressed oil. Our evening primrose contains 9% GLA and 10 IU of vitamin E as a preservative per capsule. **Evening Primrose** is available in bottles of 100 and 250 softgel capsules. (Beef Gelatin Capsules) 

Flaxseed Oil: Organic Hi-Lignin Flaxseed Oil is a wonderful vegetarian source of omega-3 fatty acids (primarily linolenic acid) as well as the lignins which are found in flaxseed, but not normally in the oil. Each gelatin capsule contains 1000 mg of oil. **Flaxseed Oil** is available in bottles of 120 softgel capsules. (Gelatin, Glycerin, St. John's Bread Extract, Beef Gelatin Capsules) 

Grapeseed Extract: Each capsule contains 50 mg of red grape seed extract. The polyphenols in the grape seed include oligomeric proanthocyanins (OPC), a type of flavonoid, that is believed to be the most important active ingredient. This extract is 92% polyphenol, 68% OPC and mixed bioflavonids 100 mg. **Grapeseed Extract** is available in bottles of 60 vegetarian capsules. (C) 

Grapeseed & Pinebark Extracts: This is the original product developed by Professor Masquelier (OPC-85™, U.S. Patent 4,698,360). This product is a blend of grape seed extract, pine bark extract that contains 85% OPC and citrus bioflavonids (100 mg). Both grape seed and pine bark are very rich in OPC but have other phytochemicals that distinguish them from each other and may offer additional benefits. **OPC** is available in bottles of 60 vegetarian capsules. (C) 

Hydrogen Peroxide (H2O2): **Hydrogen Peroxide** is food grade (3%) and has 16 oz per bottle. (NE) 

L-Carnitine: There is 500 mg of L-Carnitine from L-Carnitine L-Tartrate per capsule. This product is available in bottles of 30 vegetarian capsules. (NE) 

MSM 1000 Mg: This high quality pure MSM (methylsulfonylmethane) is one of the highest concentrations of this organic sulfur nutrient available from any source. **MSM** is available in bottles of 180 capsules and in 1 lb jars of bulk powder. (NE)

MSM Blend: **MSM Blend** is a wonderful blend of MSM and synergistic nutrients. Each capsule contains MSM (750 mg), bioflavonoids (20 mg), vitamin C (60 mg), and Korean ginseng (10 mg). **MSM Blend** is available in bottles of 90 vegetarian capsules. (MS, SD)

MSM Glucosamine Blend: This MSM product is a wonderful bone and joint combination. Three capsules contain MSM (2000 mg), glucosamine sulfate (1000 mg), vitamin C (90 mg), and grape seed extract (15 mg). **MSM Glucosamine Blend** is available in bottles of 90 vegetarian capsules. (MS, SD)

Q-10: **Coenzyme Q-10** is the most prevalent form of ubiquinone in humans. **Coenzyme Q-10** is used by the electron transport system in the mitochondria of cells for energy production. Daily **Coenzyme Q-10** is produced by the natural fermentation of molasses. Supplying 50 mg per capsule, Daily **Coenzyme Q-10** is available in bottles of 60 vegetarian capsules. (C)

Q-10 SoftGels: This coenzyme Q-10 is in an oil base for optimal absorption. Supplying 100 mg per softgel plus 100 IU of vitamin E (mixed tocopherols). Daily **Coenzyme Q-10** is available in bottles of 30 softgels. (Rice Bran Oil, Beef Gelatin Capsules)

Ubiquinol: Coenzyme Q-10 occurs in two major forms - oxidized and reduced, known as ubiquinone and ubiquinol. Coenzyme Q-10 is an essential part of the electron transport chain which shuttles electrons obtained from food to form ATP, the major energy molecule in the body. In its electron shuttle activity coenzyme Q-10 is constantly cycling between the oxidized and reduced states, therefore both forms are essential for energy production. However, several studies have shown that the reduced form is more efficiently absorbed in the intestinal tract. Both forms need to be taken with meals containing dietary fat to be absorbed most efficiently. Each capsule contains 100 mg of Ubiquinol. Daily Ubiquinol is available in bottles of 30 softgel capsules. (Pure Olive Oil, Gelatin, Vegetable Glycerin. Contains <2% of: Ascorbyl Palmitate, Natural Carmel Color, Soy Lecithin, Titanium Dioxide Color, Beef Gelatin Capsules)

Whidden's Royal Jelly: Royal jelly is the substance that causes a bee larva to turn into a queen bee. **Whidden's Royal Jelly** is harvested and then stored in a honey base. Each teaspoon contains approximately 100 mg of Royal Jelly. Each 11 ounce jar contains approximately 5600 mg of Royal Jelly. (Honey)

Willard Water Clear: The original catalyst altered **Willard Water** that was discovered and patented by John W. Willard, Ph.D. **Willard Water** is available in 8 oz bottles. (NE)

Miscellaneous

Celtic Sea Salt: **Celtic Sea Salt** is a natural solar evaporated sea salt from the salt ponds of Gureande, France, where the pure ocean water is solar dried in the clay lined ponds. The clay lining also contributes valuable minerals to the final product and is responsible for the darker grey crystals. This product is completely natural and unrefined, with all the naturally occurring trace minerals remaining. This product is available in a 1 lb jar. (NE)

Diatomaceous Earth Powder: Daily Diatomaceous Earth is food grade. Daily Diatomaceous Earth is available in 1 lb container. (NE)

MSM Lotion: **MSM Lotion** is a truly wonderful lotion for soothing sore joints and irritated skin. It contains 15% pure MSM combined with a proprietary blend of nine herbal extracts, jojoba oil, and vitamins. **MSM Lotion** is available in 10 fl oz bottles. (NE)

pH-Paper: pH-paper is suitable for urine and saliva testing. The range for our **pH-Paper** is 5.5-8.0 and is available in 15 ft rolls.

Xylitol: A natural sugar alternative that contains less calories than regular sugar. **Xylitol** comes in 1 lb jars or 4 lb bags. (NE)

About Daily Manufacturing

Jim Jr. & Mary Jo Daily started Daily Manufacturing in 1979 by making one product, Min-Col, for Dr. Carey Reams. Since 1979 Daily Manufacturing has expanded to include all of the Reams products, as well as other nutritional products. Daily Manufacturing maintains the commitment to excellence in manufacturing that earned the endorsement of Dr. Reams and the loyalty of many customers from around the world.

Company Slogan:

“Blending Science and Nature for Optimal Nutrition.”

Mission Statement:

As stated in our slogan, Daily Manufacturing is committed to producing high quality nutritional products from natural sources. We believe that natural products must have a solid scientific basis for efficacy and safety. Every product with the “Daily” name must promote wellness and optimal health without risk of harm.

Business Philosophy:

Daily Manufacturing is a small, family oriented business. We believe that we as a family, and a business, have a responsibility to represent the natural food industry in a positive way. Product claims must be both legal and morally defensible. All information must be presented in a factual manner with solid scientific basis. Daily Manufacturing also has a responsibility to the community and to its employees. We consider it our opportunity to cooperate with employees in their personal development and that of their family members. We also believe that we have a responsibility to the local and world communities to never engage in practices that endanger the health and environment of others.
